
Cressida Toon

Partner

BA(Hons) DipArch MA Cantab RIBA

Born: 1972

ARB registered architect 1997, RIBA member

Before forming Sonnemann Toon Architects with Gary and Kerstin, Cressida spent seven years at Nightingale Associates Ltd, followed by two years at RTKL UK, London. She has spent the majority of her career working in the field of healthcare architecture and has been involved in the design of large PFI hospitals, community projects and mental health facilities. She has expertise in strategic planning and has guided several Hospital Trusts through the difficult process of developing robust Development Control Plans & Estates Strategies.

Kerstin Sonnemann

Partner

Dipl.Ing.(TU Berlin) Architect RIBA

Born: 1966

ARB registered architect 1998, RIBA member

Following six years of practice on residential, commercial and healthcare schemes in Germany, Kerstin moved to the UK in 1996. After initially working on Town and Masterplanning schemes for Civic Design Partnerships, she returned to healthcare design when joining Nightingale Associates Ltd for four years. Before founding Sonnemann Toon Architects with Cressida and Gary, she carried out freelance work on a number of residential projects for Orefelt Associates Ltd, London. Her specialist expertise includes: healthcare planning, intensive care ward design, fast track projects, urban design, master planning & graphic design.

Gary Toon

Partner

BA(Hons) DipArch RIBA

Born: 1966

ARB registered architect 1993, RIBA member

Gary is a UK registered architect with over twenty years of practice experience covering acute, primary and mental healthcare design, commercial offices, data centres and residential schemes. Schemes have been completed for public sector and private clients through traditional, design & build, PFI and LIFT procurement methods and have been both new build and refurbishments including within Listed properties. Complex buildings with high levels of integrated engineering services within demanding environments characterises much of Gary's project experience. This forms the backbone of his expertise as lead consultant and lead designer that has guided many clients through the often difficult process of developing robust built solutions, development control plans & estates strategies.

Anna-Marie Lutterodt

Architect
BA (Hons) DipArch

Anna-Marie commenced her architectural studies at Plymouth and completed her diploma at the Bartlett in London in 2004 and Part III in 2006. The majority of her practice experience has been working on healthcare projects. Since joining Sonnemann Toon Architects in February 2008, Anna worked on the refurbishment of a Grade 2 listed building for the London Oncology Clinic at 97 Harley Street and has been project architect on a similar extension and refurbishment at 102 Harley Street. She has also run the contract for the Learning Disabilities Interim Unit at the East London NHS Foundation Trust's medium secure site in Hackney and more recently a succession of schemes for private clients and landlords.

David Wright

Architectural Assistant
PR Arch M Arch (Prof) BBdGA

David qualified as an architect in South Africa where he worked for 4 years. His experience ranges from urban design schemes within the Eastern Cape to medium and larger scale educational, commercial and residential projects for Cape Town's oldest practice. He relocated to the UK in 2009 and now has significant UK experience. At Sonnemann Toon he has worked on large NHS projects as well as fast track private healthcare fitouts.

João Diogo

Architect
BA (Hons) Arch Int. DipArch MArch RIBA

Joao has worked for over 10 years in the design and construction industry, mainly on large scale new developments both in the UK and abroad. UK Projects included the North Liverpool Academy, the University of Northumbria Newcastle – City Campus East and the British Library Archive in Boston Spa. He has particular skills in managing the coordination of information for large projects with a particularly keen eye for architectural detail. Since starting at Sonnemann Toon in April 2010, Joao has been lead architect on a £22M polyclinic in Coventry through the detailed design and production information stage.

Jonathan Holt

Associate
BA (Hons) DipArch

Jonathan commenced his architectural studies at Oxford Brookes University, moving on to complete his diploma at the Bartlett. Following two years as an Architectural Assistant at Farrell's office in London, he joined Sonnemann Toon in November 2008. He has since been instrumental to the design of a number of our healthcare and residential projects, leading the refurbishment of CRI, a Grade 2 listed building at St Mary's, Paddington, and the 5000m² BHV Medical Centre in Bedford. In 2010 Jonathan gained his part 3 qualification and started in the role of Project Architect for the extension and refurbishment of a commercial building at 26/28 Hallam Street to convert it to luxury flats. In November 2011 Jonathan was promoted to the role of Associate Partner.

Ricardo Reis

Architect
DipArch (TU Lisbon)

Ricardo studied in Lisbon before moving to the UK where he registered as an architect in 2004.

He has extensive project experience in the fields of hospitality and private residential. He has particular skills in heritage work and construction detailing. Since Ricardo joined us in April 2010, he has worked on key packages for some of our largest schemes as well as taking the design lead on some of our Harley Street projects.

Roisin Feeney

Architect
BArch (Hons) PG DipArch

Roisin received her architectural education at the Dublin Institute of Technology receiving a honours degree in 2007. After working in both Hong Kong and London she spent 4 years with the Office of Public Works in Ireland where she completed her professional diploma with the Royal Institute of Architects.

Roisin has also recently completed a post graduate diploma in Marketing and Management and has developed a specialism in branding through architectural design. She joined Sonnemann Toon Architects in 2012

Tim Bennett

Architectural Assistant
BA(Hons) DipArch

Tim began his architectural studies in The University of Lincoln, completing his Postgraduate Diploma at the University of Westminster in July 2011.

His previous experience whilst working for a large commercial practice was predominately in bespoke residential dwellings and large commercial retail and public projects. Tim spent two years working on a demanding and complex residential project from conception to final completion and was responsible for the delivery and management of construction information for the project.

In 2007 Tim was shortlisted for the RIBA Bronze Medal and has since picked up numerous awards for his Undergraduate and Diploma projects.

Timothy Crone

Architect
BSc BA(Hons) MArch PgDip RIBA

Completed his undergraduate studies in 2005 before commencing his masters back at the University of Dundee.

In between his degrees he worked at James F Stephen Architects for a year. During this period he worked mainly on small scale residential refurb projects and a PPP bid for Aberdeen Schools. He also gained experience on a large scale student accommodation scheme.

After his masters he joined Grimshaw Architects where he spent three and a half years working on a mixture of large infrastructure and transport projects. Notably helping to successfully deliver Newport Rail station in time for the 2010 Ryder Cup. He also gained experience on Heathrow Terminal 2 Concourse B seeing various aspects and stages of work on this project. He also worked closely with Sir Nicholas Grimshaw on a competition bid which was highly commended by the other partners.

He joined Sonnemann Toon Architects in January 2012 and is currently working as an Architect on various bids.
